

## End-of-life Notice

January 10th, 2017

Septentrio is committed to offer its customers with the best possible performance on its GNSS receivers while still having the flexibility of scalable accuracy and features included on its products. To ensure this commitment Septentrio intends to discontinue supply of the receiver models mentioned below and replace them with the latest technology available.

### Products affected

The End-of-life applies to the **Altus NR2**. Its new alternative, the Altus NR3 and its models provide equivalent functionality and extra possibilities. The new model Altus NR3 delivers multi-constellation (GPS, GLO, BDS, GAL and IRNSS) and satellite technology with software option upgrade possibilities.

For a complete list of affected part numbers and the associated replacement part numbers, please refer to the table below:

Altus NR2		Altus NR3	
Altus NR2 C	410056B1444	Altus NR3 C	410222B1774

## Last order date - Feb 28th, 2018

It will still be possible to order Altus NR2 receivers until **Feb 28th 2018**.

## Final Ship Date – Apr 30th, 2018

Orders received before the last order date will be shipped from Septentrio no later than **Apr 30th, 2018**.

## Warranty & Support

Standard 2y warranty & support conditions apply or as indicated in the sales contract. Septentrio keeps the right at its own discretion to decide on the best way to provide customers with a repair solution (considering product and components availability) while still providing the best standard of service and support to its customers. Broken units can, if possible, still be fixed by our Repair service until **May 29th 2020**. In such case please follow the standard Septentrio's RMA procedure.

While Septentrio regrets any inconvenience this announcement may cause, we appreciate our business relationship and are fully committed to supply your future product requirements.

For additional questions please contact Sales: [sales@septentrio.com](mailto:sales@septentrio.com)
